### VENEZUELA RESENTS IT

Senor Palacio's Arrest May Get This Government in Trouble.

Ender the Law Attaches of Foreign Legations Are Exempt and a Big Claim May Result.

Although the present administration, at the eleventh hour, has acquired considerable reputation at home and a little abroad by reason of presecuting what is styled a vigorous foreign policy, the fact has just developed that the physicians in charge may be compelled to take at least a homeo pathic dose of their own medicine.

Senor Jose Andrade, Venezuelan minister to the United States, has declared his in tention of bringing to the attention of the State Department, at the first opportunity, the fact that the indiguity of arrest, imprisonment and fine has been imposed upon Senor Alberto Fombona Palacio by Magistrate Cornell in the Jefferson market court. New York.

The minister will urge that the law be complied with to the letter and that the Policeman who arrested him, the sergeant who detained him, and the magistrate who imposed the fine be punished under its provisions.

It will be remembered that on last Saturday evening Senor Palacio was arrested by Policeman Waish at the corner of Sev-enth avenue and Twenty-third street, New York, and locked up, charged with insulting

Notwithstanding the fact that he declared his identity, he was held until bail was furnished, and Monday on his appearance in court he was fined three dollars.

As a matter of fact Minister Andrade does not care two raps about the disgrace which has befallen Senor Palacio as an indi vidual, but as an attache of the Venezuelar legation the matter assumes a more serious aspect. He feels that the dignity of his government must be respected and that some regard for the rights of legation at taches must be shown, and hence he has de termined to press the matter of punishmen and apology to the utmost limit.

Curiously enough the law in the case those concerned in the detention of even the most humble employe

ment, and fining of Senor Palaci constitutes a legal process within the meaning of the statutes. In such an event Policeman Walsh, Magistrate Cornell, Mrs. Amelia Kloche who made the complaint and the officers on duty at the station house who held the senor for bail are all liable to three years' imprisonment and an unlimited fine.

The minister has not as yet taken into consideration the filing of a claim for dapages against the United States for the indignities offered Senor Palacio, but this may come later. But he is determined that all those concerned in the detention of the attacheafter he had madeknown his identity strong appeal to this effect with the State

#### VEGETARIANS' REBELLION.

#### Anxlety Felt as to the Fate of American Missionarles.

The chief interest attacking in Washington to the dispatch from Foo Chow that a rebellion has begun in the province of Fo-Kien is as to the fate which awaits the American and European missionaries in that province, should any still remain in the vicinity of Ku-Cheng. Reports reached here through diplomatic and private sources several weeks ago that the missionaries after the recent massacres in the interio of the province had, with their families sought refuge at Foo Chow, which is near the coast, and where the presence of foreign men-of-war make them safe from further

If they have remained at Foo Chow, or, rather, at Pagoda Anchorage, which is a foreign settlement only a few miles removed, no danger could happen to them. If, however, in their zeal to begin again their work of Christianizing the natives, they have returned to the interior of the province gravest apprehensions will be felt for their safety, unless they receive the protection of the European or American

It is surmised that the rebellion is the work of the "Vegetarians," who were re sponsible for the assaults some weeks ago upon the foreign missions. Until that time little, if anything, was known in this country of this society, beyond the fact that it was a secret organization, and that

It now appears that they have adopted their society, a religious character, inas much as the Buddhists do not practice the enting of ment, but live wholly upon a veg eating of meat, but live wholly upon a veg-an article of the Buddhist faith. Memphis, Tenn., Sept. 17.-Congressm Josiah Patterson has returned from another tour of gold monometalism speech-making returning by way of Washington. He was in the latter city last Thursday. Referring to an interview with Secretary Carlisle, the Congressman said to-day:

"Well, I know that the Secretary of the Preasury does not contemplate another ssue and does not believe that the neces sity will arise. It is the policy of this ad ministration to maintain public credit and the people may rest satisfied that the will be done, but the Secretary dom not contemplate that the necessity will arise

and there is every disposition to avoid it.
"At this time the Secretary of the Treasury is receiving quite an amount of gold from the interior in exchange for bills of small denominations which are needed by the banks to move crops. "What about the third term?" "I do not take any stock in the third term idea. I do not believe it has ever been seriously considered by the President or desired by him. Should the next Congress refuse to respond to his recommenda tions for the passage of laws looking to the reformation of our currency system, it might operate to produce a strong senti ment in the country in favor of a third term. but I do not think, in view of American traditions on this subject, that it will as sume practical shape, or that the idea will be seriously entertained by the Presi

"Carlisle, Whitney and Morrison are the names which I heard discussed as Presidential candidates. The party is not without good material for Presiden but I think it our first duty to settle our differences on the financial question, that being the only question Democrats differ on. The only point of attack for the Re publicans then will be the tariff, and I think it is evident that on that issue the Democratic party will win.

"The hope of the party lies in support-ing the present Administration. It is immensely strong with the American peo-ple, and Democrats cannot discredit it and hope to win the confidence of the country. The attitude of Congressman Patterson is such that his statements may be regarded as the declaration from A tration bendquarters.

New York's Famous Divine Asked to Come to Washington The Rev. T. DeWitt Talmage, for many

years pastor of the great Tabernacle Church Brooklyn, N. Y., will probably come to Wash ington as co-pastor with Rev. Byron M Sunderland at the First Presbyterian Church on Four-and-a-half street, near D, north

No one will be surprised at this who wit nessed the marvelously enthusiastic reception given to Dr. Talmage here last fall. He was surrounded by his admirers after his cloquent sermon in Dr. Sunderland's pulpit and spoke for half an hour to a great audience in the street, made up chiefly of persons who had been unable to get into

Even then he was not allowed to go but hundreds thronged about him to shake hands and he was nearly another half hour in going from the church door to his carriage thirty feet away. At that time there were frequent cries "Come to Washington, Dr.

The matter has been much discussed by the iding men in the First Church ever since and a day or two ago a letter was sent to Dr. Talmage signed by Dr. Sunderland, the deacons, elders and a number of prominent members of the church asking if he would work as associate pastor of Dr. Sunderland.

One of the biggest crowds of the season packed the New National Theater last night to renew their acquaintance with their prime favorites, Primrose and West's Mammoth

favorites, Printrose and West's Mammoth Minstrels. There are similar crowds in reserve for every night this week.

This familiar comountion had the house with them all night and the theater rang with shouts of laughter and applause all through the lively performance. George H. Printrose, W. H. West and George Wilson are still reigning supreme from gallery to pit, and they are backed up by such admirable talent as Jimmy Wall, Andy McLeod, John Howe and John Whalen.

The singers are of a superior quality and the audience was quite in touch with them and their songs. Among the good voices are: A W. Hulme, John H. Davis, Bert Miller, James W. Reagon, George Williams, and William H. Windom.

George Wilsess had quite a lot of new and funny things to say, his hit about Lord Dunraven being apropos and smart.

The specialties are numerous and deserve the name. There is excellent accenery and brilliant coloring in reveral of the diversions.

A pleasing bill full of fun, music and

A pleasing bill full of fun, music and dancing was presented at the Bijou Theater, which fully tested the limits of that cozy little family resort last night.

Manager Easton presented one of the strongest vandeville shows ever seen within its walls. He has certainly made a strong bid to regain the name that the Bijou enjoyed under his previous management. The company comprised such well-known artists as the National Trio, F. D. Bryan, Nellie Foster, G. E. Moulton. Bryant and Richmond, familiar with all theater goers in their success here in Washington in "Keep II Dark" and Scabrooke's comic opera, "Tobases," Gerard and Thompson, the two men from Verona; George W. Anderson, champion fancy trick scater of the world, assisted by Ella Anderson, who created quite a sensation with their act, and Edwards the world, assisted by Ella Anderson, who created quite a sensation with their act; and Edwards and Kernell, the travesty sketch artists. The great Drawee gave a wonderful exhibition of his powers as a manipulator and juggler, and the Paynes presented one of the strongest musical acts in this country.

The performance on the whole was pronounced a success, doing great credit to the management in presenting for the first time, a clean vanderille show where ladies and children can attend, being assured that everything will be as the management has guaranteed. Matinee to-day and performances every night this week.

When Peter F. Dailey first appeared in "The Country Sport" the theater-going public gave him a great reception, and declared that it could not possibly be surpassed, but they had not then seen his new play, "The Night Clerk." This comedy is from the pen of John J. McNaily, and it by far the best he has ever produced.

When Dailey made his bow at the Academy last hight the house was nacked

When Dailey made his bow at the Academy last night the house was packed to the doors.

Like most of Dailey's plays, it has no plot worth mentioning, and its worth les in the catchy manner in which it is written and in "Pete" Dailey. He is the life of the performance and keeps the audience in convalsions of merriment.

The comedian is ably supported by Miss Jennie Yeamans.

There are three scoes, the first representing Owen More's apartments, the second a police station in the Tenderloin, and the third the lobby of the Hotel Blase. The last was a magnificent scenic affair, and elicited hearty applause.

The twelve hundred or so patriots at Allen's Grand Opera House saw and heard "Old Glory" dramatized in a new and "Old Glory" dramatized in a new and eventful play bearing its name

It took well, because it has in it plenty of suggestion of the glory and prowess of the blue jacket in foreign waters. In this case the audience witnesses the galinutry of our Jack Tars on board the cruiser Baltimore, which is put on the stage. An American beauty is in dire distress in the hands of a heavy villain at Valparaiso. The villain escapes and takes to the sea, where he is overhaused in his piratical craft by the Baltimore.

There is a sea fight, which is admirably staged, and the action excites the audience to a high pitch of eethnaism when Old Glory comes to the rescue of all.

The heroine is May Harvey, played by Miss Midred Holland, and the hero, Robert Adam, played by Mr. Joseph Slaytor. The funny man is Mr. Arthur E. Moulton and the comedy lady, Miss Lottie Williams. The typical Bpanish beauty is Miss Rose Chesnean.

Chesnean.

The story is a good one and the cast tell it and present it well. There is no time for ennul in such a play as this. It is full of action and stirring dialogue, and will take well anywhere except in Chilli. It will be on every night this week

Manager Kernan, of the Lyceum Theater, has a show billed this week that certainly throws far into the shade anything that the house has ever had. Harry Morris' Twentieth Century Maids are the attraction and they carried out the up-to-date flavor of the combination with a swing and dash that wonthemall the applause they deserved. The performance opened with an original conception on the "new woman," entitled "The Girl Bachelora Stag." John T. Hanson as "Tet," the Yankee clothopper, Harry Emerson and Miss Annie Carter in a skit entitled "Don't Notice It," and Leila Trimble,
